Dear amazon seller performance team,

Thank you for providing the requested information.

Carefully internal investigation has finished and gets a clear idea of the entire scenario of this issue

During this time, a comprehensive summary on the paper is made as required:

--Main methods have used to obtain Customer Reviews that are prohibited by Amazon policies:

1. Whole process is responsible by a new rookie who lacking of Amazon policy, as we all know, peak season has coming, all staffs are full of enthusiasm about increase sales and get hefty commissions from sales, so this staff came up with the idea himself –take advantage of third party to promote new offers and leave positive reviews to attract customers to purchase from my wen store.
2. Main methods: surfing the web for searching third party which can provide this service: leave positive reviews for new offers, after receiving an appropriate response, and then this staff agrees to cooperate with them. This company organizing others purchases items from our amazon online store and then leave 5 star rate reviews for each order, on the other hand, this staff corresponding fee at the same time (use my account balance to pay the handling fee).
3. And now due to amazon has suspended my seller account, he was afraid to be punished, so leave my company so silent and it is dreadful for my company. But what was far worse than loss a lot of money was amazon suspended my account.
4. This new staff manipulates product reviews for this item: B074G27T6M and end up with a total of 26 reviews (some reviews have been removed by Amazon and now only 9 prohibited reviews still on your site).
5. I am already in a tight corner and can't move anymore, so I've called the police for help to trace this fraudulent person and prevent them from deceive other seller.
6. I know that
fraudulent use of seller ratings, feedback and customer reviews: manipulating ratings, feedback and product reviews are prohibited. And buyers may puzzle by an inauthentic product review and then led to a bad shopping experience on your site. Please allow me say sorry again.
