Urgent Request to Reset Two-Factor Authentication for Amazon Account

正文：

Dear Mr. Jeff Bezos,

I hope this message finds you well.

My name is [Your Name], and I am the owner of an Amazon store. Unfortunately, I am currently facing a significant issue with accessing my account. My registered email is [Your Email]. Due to the loss of my mobile phone, I am unable to complete the two factor authentication process required to log in.

Following Amazon's guidelines for resetting the two-factor authentication, I submitted my identification documents, including my ID and business license, over a month ago. Despite this, I have not received any response, and my two-factor authentication has not been reset. This delay has severely impacted my ability to manage my store, process orders, and provide customer service.

Given the urgency of this matter, I am reaching out to you directly in hopes of expediting the resolution. I am more than willing to provide any necessary documentation to verify my identity and ownership of the account.

Thank you very much for your understanding and prompt assistance in this matter.

Sincerely,

[Your Name]
