

VC 订单确认

VC 订单一般是星期一下午来，星期二可能会补一些，也可能会取消一些，因为先是亚马逊系统下单，后面人工审核一下，所以会有这种情况。

VC 订单确认的话就比较简单了，确认订单数量就可以了，如果有不想要的订单设置为缺货或者不供货就可以了。拒绝订单分两种，一是叫软拒绝，就是缺货这种，二是硬拒绝，就是设置 OB,不供货。可以软拒绝硬拒绝多少次不会扣钱等详细信息自己去后台帮助看。

-----开始确认订单-----

1.在主页我们可以看到有采购订单来了，我们需要去确认。

The screenshot shows the Amazon Vendor Central dashboard. At the top, there's a navigation bar with tabs: Orders, Items, Merchandising, Reports, Payments, and EDI. Below this, there's a section for performance metrics: PO ON-TIME ACCURACY (0%), ASN ACCURACY (0%), and PREP ISS (0%). Each metric has a 'View report' link. Below this is the 'Your business advisor' section, which includes a link to 'Help us improve Business Advisor'. A 'Required actions' box is highlighted, containing a link to 'Confirm new POs' and a red badge indicating 12 new purchase orders.

2.路径：Order>>Purchase Order

The screenshot shows the Amazon Vendor Central 'Orders' menu. The 'Orders' tab is selected, and a dropdown menu is open, showing options: Purchase Orders, Shipments, Returns, and Authorize Amazon-initiated returns. The 'Purchase Orders' option is highlighted. Below the menu, there's a message: 'You don't have any Business Advisor rec'.

3.点击 Confirm new pos(X)进去查看订单详情,

6.在这里填写状态, 接受就是 In stock 咯, 软拒绝就是 Out of stock 咯, 硬拒绝就是 Obsolete。接受的话就不多说, 确认一下数量就 ok; 拒绝的话分两种, 软拒绝次数超过 5 次会扣款, 硬拒绝是不会扣款, 但是下次就不会来订单了, 怎么选择, 自己斟酌。

Accepted: In stock		8

Backordered		8
NO (Temporarily Unavailable)		8
Cancelled: Out of stock		8

NO (Permanently Unavailable)		8
Discontinued: Obsolete		8
Cancelled: Suspend orders		8
Accepted: In st...	7/2/2018	7/5/2018

7.这里就是接受数量, 你可以手动填写, 只可以改小, 不可以改大, 如果说你仓库就少一点, 你就少接受一些也是可以的。

Accep...	Unit C...
36	\$6.9
24	\$6.9
12	\$6.9
12	\$6.9
3	\$8.9

4	\$8.9

所有的订单 ASIN 都确认好了无误，直接点击提交就可以了，这样订单就确认完了，后面觉得订单有不合适的地方，还是可以修改的，但是尽量第一次确认好吧。

A screenshot of a web form. It features a light gray rectangular text input field with a small left-pointing arrow icon on its left side. Below the input field is a yellow button with a black border and the word "Submit" in black text.

我这里是因订单少，ASIN 少，我全选，一次性确认了，如果订单多了，也可以分批次进行确认，以免出错。

好像还可以通过导出的表格进行确认订单，就不用再后台操作，确认完再上传也可以，不过我没有操作过。
