

VC 添加修改产品图片

VC 修改产品图片，产品上传时，图片和文案是分开的，需要单独上传图片；在添加产品时放图片链接也可以，但是只可以放主图的。

1. 选择 Manage images>>点击选择产品前的复选框>>点击 manage images 进入图片加载页面。

Image	Product name	Product ID	Date last modified	Cost	Availability
	[REDACTED]	ASIN B07F6LDWD7 UPC 741025797932 SKU VCUDCam	7/2/2018	\$28.99	In stock

2. 通过点击 Upload images 来加载你的图片，你有多少张图片就加载多少张，一般是 7 张。

Live images

Some or all of these images may currently appear on Amazon. Visit the ASIN detail page to see what is live now. At this time, we don't support self-service image removal. Uploading a new image may replace what is displayed here.

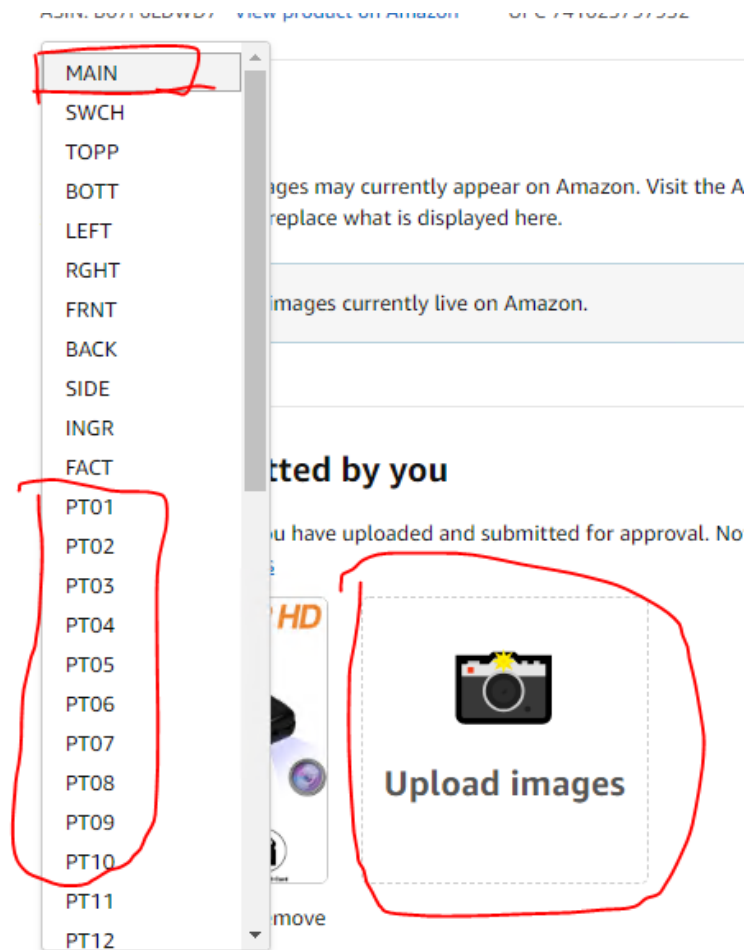

There are no images currently live on Amazon.

Images submitted by you

These are the images you have uploaded and submitted for approval. Note: An image preview may not be available if the image was uploaded before August 2016. [See image requirements](#)

Upload images

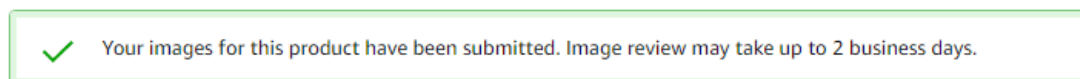

加载完图片后，需要再图片下面选择图片的类型，比如主图用 main，附图用 PTO1-n,来表示，必须要选择。

3.所有图片加载完，分配主副图完，无误点击提交图片就 Ok，系统有时会不行，会提升错误，多提交几次就够了。

提交成功就会显示如下图：

4.修改的图片的话是一样的，进去加载图片，设置主副图，提交后会覆盖之前的图片。

除了添加修改图片，这里再提一下如何设置产品状态，在 Update availability 中有三种状态，in stock, temporarily unavailable, permanently unavailable。当我们有产品不想它来订单时，因为产品是不能删除的（开 CASE 可能可以删除），我们只有设置状态也暂时不可用，或者永久不可用的方式来拒绝他来订单。如何设置很简单，先点击 Update availability,再选择你要改变状态的产品，再点击要修改的状态，点击 Edit availability 提交就可以。后面如果又想做这个产品，把状态改回来就可以了。这一步特别是在跟卖别人，修改品牌，加节点，上视频，加 New model 结束后又不想来单，设置为不可用，还是很不错的。
