Buyers expecting GenAI to change online shopping in U.S. and UK 2024, by generation	<u>43</u>
Retailers investing in specific AI areas worldwide 2025	<u>44</u>
Usage of AI/ML tools in e-commerce fraud management worldwide 2024	<u>45</u>

CHAPTER 01

Overview

Retail e-commerce revenue worldwide from 2017 to 2030, by segment (in billion U.S. dollars)

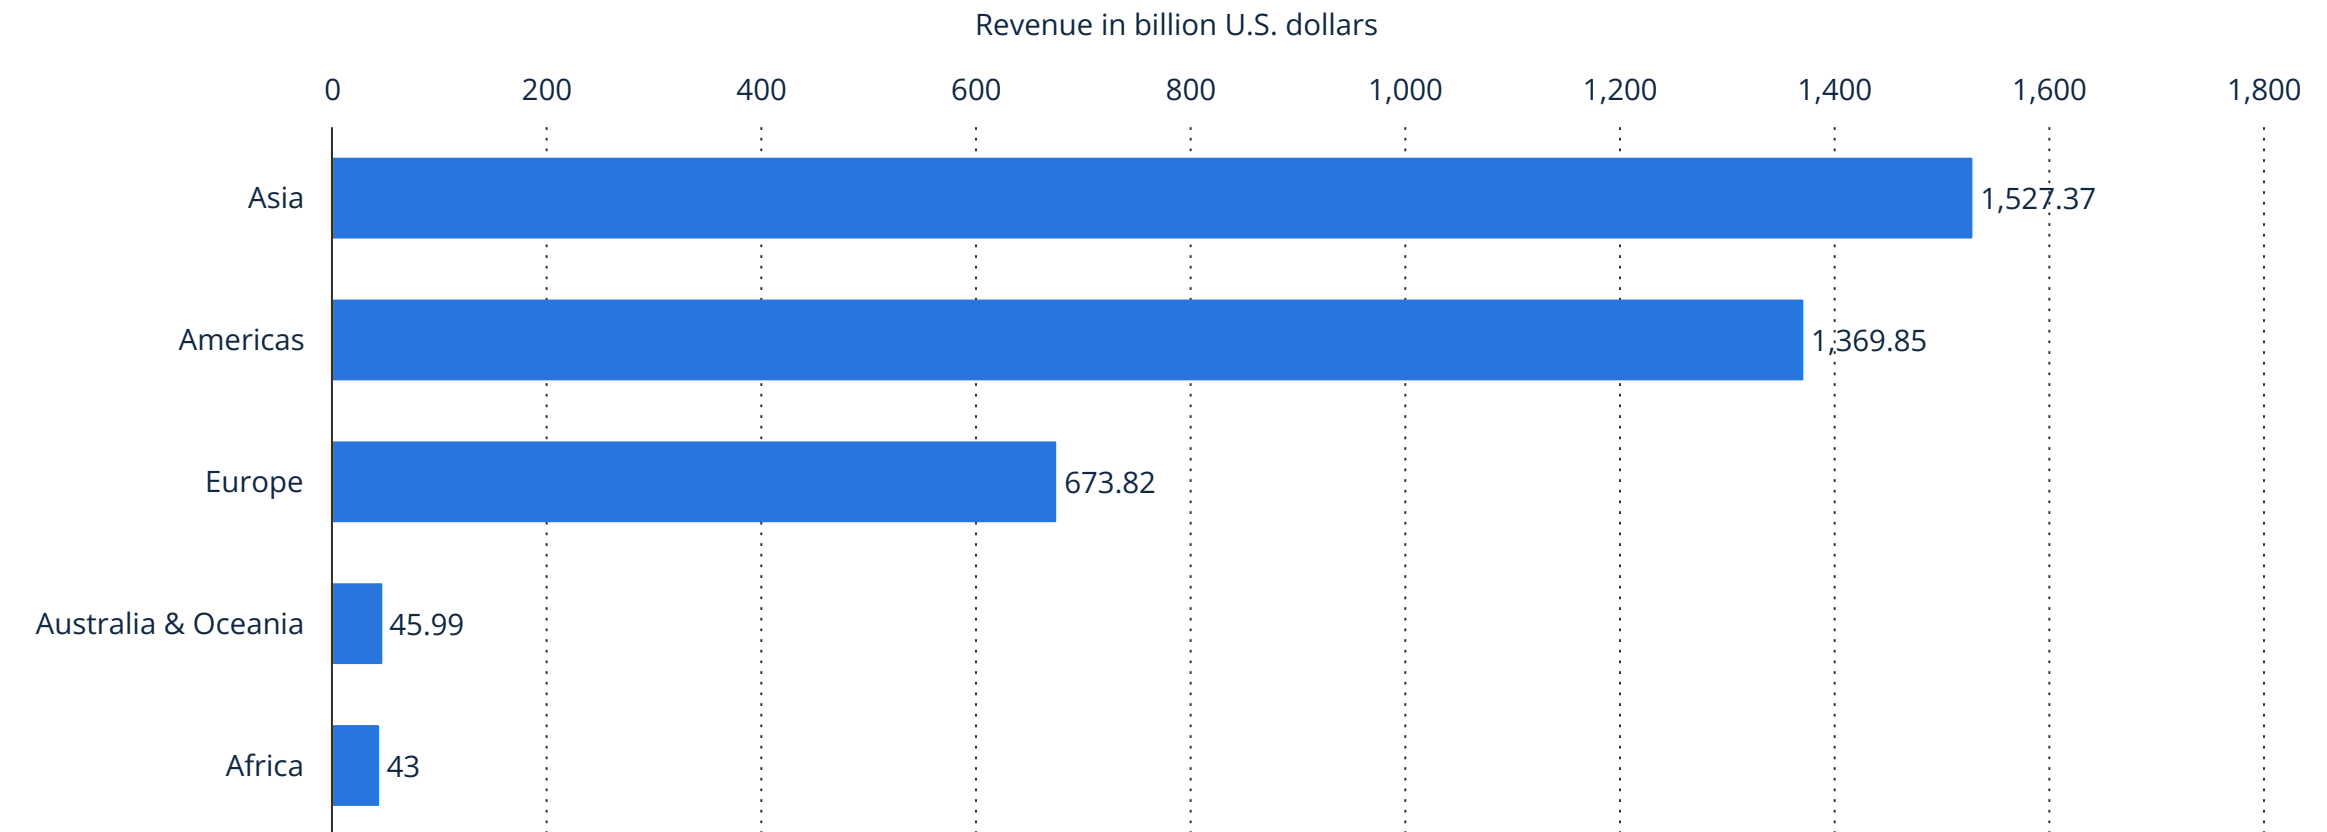

E-commerce revenue worldwide 2017-2030, by segment

Description: Significant fluctuations are estimated for all segments over the forecast period for the revenue. In general, the indicator appears to exhibit a positive trend, with more segments showing increasing values rather than decreasing values until 2030. Among them, the segment Food attains the highest value throughout the entire period, reaching 1.23 trillion U.S. dollars. The Statista Market Insights cover a broad range of additional markets.
