Description: The COVID-19 outbreak led to a substantial surge in e-commerce transactions in Spain. From nearly 227 million in the first quarter of 2020, the number of online transactions exceeded 300 million by the end of the year. Even after businesses reopened as the crisis subsided, the volume of e-commerce transactions remained above pre-pandemic levels. In the second quarter of 2024, the number of e-commerce transactions surpassed 422 million. [Read more](#)
